(m) Figures cannot be given owing to the destruction of books by fire. (n) Years ended 30th September (1881 to 1889).

(p) Including "clearances" of Mail Steamers, for which "entries" only were shown prior to 1886.

(q) Net tonnage; the St. Vincent returns for years prior to 1888 show the gross tonnage of vessels.

(r) Exclusive of trade between Trinidad and Tobago, treated as coastwise from 1st January, 1880, when these islands were united to form one Colony. (s) The figures for 1893 and prior years represent the tonnage of vessels entered and cleared with cargoes only. Prior to the passing of the "Customs Ordinance, 1894," on the 1st October of that year, manifests of steamers were only required to be put in if cargoes were brought or taken away in such steamers. The returns of the vessels entered and cleared in ballast were consequently very imperfect.

(m) Figures cannot be given owing to the destruction of books by fire.

(n) Years ended 30th September (1885 to 1889).

(p) Including "clearances" of Mail Steamers, for which "entries" only were shown in 1885.

(q) Net tonnage; the St. Vincent returns for years prior to 1888 show the gross tonnage of vessels.

(r) Exclusive of trade between Trinidad and Tobago, treated as coastwise from 1st January, 1889, when these islands were united to form one Colony.

(s) The figures for 1893 and prior years represent the tonnage of vessels entered and cleared, with cargoes only. Prior to the passing of the "Customs Ordinance, 1894," on the 1st October of that year, manifests of steamers were only required to be put in if cargoes were brought or taken away in such steamers. The returns of the vessels entered or cleared in ballast were, consequently, very imperfect.

(t) Inclusive of transports carrying stores, but exclusive of those conveying troops.

(u) Exclusive of transports.

To the SECRETARY of the BOARD OF TRADE.

Sir,

I HAVE the honour to submit the 38th No. of the "Statistical Abstract for the several Colonial and other Possessions of the United Kingdom," which has been compiled, as usual, either from the published statistical records or from information specially furnished by responsible officers of the various British Colonies, to whom I desire to offer the thanks of this Department for their courtesy in revising and completing the Tables.

The information given relates to the years 1886 to 1900, and, with a few minor exceptions, is practically complete for all the Colonies and Possessions.

Within recent years, the Abstract has been considerably enlarged, and the present publication has been further extended by the inclusion of new statistical matter occupying 38 pages. Reference need only be made, however, to the more important of the Tables that have been added in the present number.

A Table has been inserted (*see* pp. 196—201) with the object of showing, in a concise form, the value of the Trade of the principal Colonies and Protectorates with the United Kingdom as compared with their trade with Germany, France, and the United States during the last three years.

The result of the figures referred to in the Table will show that the proportion of the trade of the United Kingdom with her Colonial Empire, taking Imports and Exports combined, amounted, in 1900, to 42 per cent. of the total trade of the British Colonies and Possessions, whilst the proportion of that trade done by Germany was only 3 per cent., by France 2 per cent., and by the United States 12 per cent., which was mainly with the North American and West Indian Colonies.

The British West African Colonies show a comparatively large export trade to Germany, although the bulk of the goods

exported find a market in the United Kingdom, except as regards Lagos, from which, during the year 1900, the exports to Germany amounted to 51 per cent. of the total, as against 35 per cent. to the United Kingdom.

The Agricultural Tables have, in the present Number, received considerable enlargement by the addition of Tables (*see* pp. 246—7) showing the acreage and production of tea in India and Ceylon, and of coffee in India and Jamaica, whilst an interesting Table has been given (*see* pp. 248—9) relative to the quantity of wheat remaining for home consumption in the grain-growing countries of India and Canada.

A Table has been prepared (*see* pp. 256—7) showing, so far as possible, the output of gold in the various British Colonies during the last fifteen years. The quantity produced cannot, however, be stated for all Colonies, more particularly for the various South African Possessions, but, in such cases, reference has been made to the exports therefrom.

As regards the South African Colonies, the output of gold has, of course, been considerably restricted owing to the war which commenced in October 1899. In the case of Natal, the exports of gold bullion declined from 403,000*l.* in 1899 to 1,000*l.* in 1900, whilst for Cape Colony, there was a decrease from 13,800,000*l.* to 337,000*l.* during the same period.

In addition to the Table of Contents at the beginning of the Abstract, an Index, in a detailed form, is now given for the first time for each British Colony and Protectorate at the end of the publication.

I have, &c.

A. E. BATEMAN.

The tonnage of Ships entered and cleared in the Lake and River trade between Canada and the United States was as follows :—

9,072,545	8,124,134	10,411,649	11,362,953	12,160,631	12,183,066	12,738,974	North America : (f) Dominion of Canada (Years ended 30th June).
-----------	-----------	------------	------------	------------	------------	------------	--

(u) Years ended 30th September (1886 to 1889).
 (p) The decrease was partly due to the plague in New South Wales.
 (q) *Net* tonnage; the St. Vincent returns for years prior to 1888 show the *gross* tonnage of vessels.
 (r) Exclusive of trade between Trinidad and Tobago, treated as coastwise from 1st January, 1889, when these islands were united to form one Colony.
 (s) The figures for 1893 and prior years represent the tonnage of vessels entered and cleared, *with cargoes* only. Prior to the passing of the "Customs Ordinance, 1891," on the 1st October of that year, manifests of steamers were only required to be put in if cargoes were brought or taken away in such steamers. The returns of the vessels entered or cleared *in ballast* were, consequently, very imperfect.
 (t) Inclusive of transports carrying stores, but exclusive of those conveying troops.
 (u) Exclusive of transports.
 (v) Tobago is included with Trinidad.
 (w) The decrease was due to a foreign line of steamers not touching at Seychelles as in former years.

No. 8.—TONNAGE of BRITISH VESSELS ENTERED and CLEARED (exclusive of Coasting Trade).
